Summary

Full-stack engineer with production-deployed MERN applications and 300+ LeetCode problems solved in C++ and JavaScript. Experienced in secure authentication flows, AI API integrations, RESTful API design, and CDN-optimized asset delivery. Completed a frontend internship at Suncce Renewables Pvt Ltd. Oracle Certified Generative AI Professional. Seeking an entry-level SDE role to build scalable, reliable systems.

Technical Skills

Languages & DSA: JavaScript (ES6+), C++ (DSA, 300+ LeetCode), TypeScript
Frontend: React.js (Hooks, Context API, Lazy Loading), Vite, Tailwind CSS, HTML5, CSS3, Responsive UI
Backend: Node.js, Express.js, RESTful API Design, MVC Architecture, JWT, Session Auth, Middleware
Database: MongoDB, Mongoose ODM, Schema Design, Aggregation Pipeline
Tools & Practices: Git, GitHub, Postman, Cloudinary CDN, Vercel, Render, Agile/Scrum

Experience

Frontend Development Intern | Suncce Renewables Pvt Ltd

Jan 2026 – Apr 2026

- Engineered 5+ responsive React components from Figma designs, achieving pixel-perfect rendering across 3 core product pages.
- Resolved frontend inconsistencies across sprint cycles, reducing reported UI bugs by 30% and contributing to an on-schedule pre-release build.
- Integrated 3+ frontend modules with backend REST APIs using async/await, enabling real-time data rendering in a 4-member Agile team.

Projects

AplusThumbnails — AI Thumbnail Generator | React, Node.js, Express, MongoDB, Gemini API, Cloudinary | [Live](#) | [GitHub](#)

- Architected an end-to-end AI thumbnail generation pipeline from prompt input to Cloudinary delivery, completing the full flow in under 3 seconds.
- Implemented secure session-based authentication with MongoDB-backed session storage, supporting persistent login and per-user data isolation.
- Integrated Cloudinary CDN for optimized image storage, reducing average asset load time by 40% measured via browser network benchmarking.

Aplusshow — Movie Ticket Booking App | React, Node.js, Express, MongoDB, Nodemailer | [Live](#) | [GitHub](#)

- Built a full-stack ticket booking platform with real-time seat selection and concurrent reservation logic, preventing double-booking under simultaneous sessions.
- Designed dual-layer JWT + session authentication with role-based access control and an admin dashboard for managing movies, showtimes, and reservations.
- Automated email confirmations via Nodemailer and implemented seat auto-release on payment failure, improving end-to-end booking success rate.

Personal Portfolio | HTML, CSS, JavaScript | [Live](#)

- Designed and shipped a fully responsive portfolio achieving a Lighthouse performance score of 90+, with optimized asset loading and smooth cross-device navigation.

Education

B.Tech in Computer Science Engineering

2022 – 2026

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Certifications

- Oracle Cloud Infrastructure Certified Generative AI Professional (2025)
- Oracle Cloud Infrastructure Certified AI Foundations Associate (2025)
- Frontend Development Internship Certificate — Suncce Renewables Pvt Ltd (2026)
